Going Beyond What's Possible

What We Do?

Quark team wishes to see its philosophies of collaboration, discovery, and mutual growth and development passed on to the next batch, and its legacy maintained.

Open Source

Open source

Quark aims to promote and inculcate an open source culture within and outside the

WE ARE READY.

are you ?

Application Development

Application Development

QUARK doesn't do cookie-cutter solutions. Every project involves stages of target audience research and prototype testing. The result? A product that's perfectly suited to your users.

Competitive Coding

Competitive Coding

DSA plays a significant role in software businesses' hiring procedures. DSA is used by recruiters to evaluate a candidate's programming skills because it demonstrates their ability to solve problems.

Cyber Security

Cyber Security

QUARK encourage students to practice of protecting critical systems and sensitive information from digital attacks.

Rust & ROS

Rust & ROS

Although widely utilized in the industry, Rust and ROS, the two undiscovered technologies in our campus, are difficult to explore. Quark wants to give everyone the right direction they need to succeed in these fields.

Machine Learning

Machine Learning

We will be having hands on experience with basics of machine learning, models enhancing techniques, Natural Language Processing, Time Series Forecasting, Object Detection and much more. Not to forget! we are also gonna deploy them on to the web using Advance frameworks like Django.

We will be having **About** on experience with **basics** of machine learning, models enhancing techniques, Natural Language Processing, Time Series Forecasting, Object Detection and much more. Not to forget! we are also gonna deploy them on to the web using Advance frameworks like Django.
